Thanks to our extensive experience, our qualified and dedicated employees and the implementation of systematic quality management, we are able to ensure consistently high product quality while focusing on the protection of the environment and the safety of our employees as essential components of our company policy.

Customer and supplier orientation

- We strive to build long-term partnerships with our customers and suppliers, which are based on mutual trust.
- We pursue a zero defects policy in order to be listed as an A class supplier with all our customers.
- We count on the high quality of our products to ensure long-term relationships with our customers.
- Thanks to continuous supplier qualification measures, we work closely with our suppliers and are able to communicate our customers' wishes to them without misunderstandings.

Employee orientation

- We guarantee a safe and healthy working environment for our employees.
- We continuously improve our employees' working conditions and invest in sustainable jobs.
- In dedicated training courses, our employees learn how to work in a safe, quality conscious and environmentally conscious manner.

Continuous improvement process

- We are continuously improving our processes and products.

Environment and safety

- We are aware of our responsibilities with regard to safety, health and the environment. We have these responsibilities towards our employees as well as towards the general public.
- We strictly adhere to statutory and company requirements to prevent personal injury, material damage and pollution.
- We endeavour to prevent accidents, occupational illnesses and work-related health hazards.
- We try to use natural resources like raw material, energy, water and commodities as economically as possible.
